Mr. Frank Scully  
Henry Holt Publishing Co.  
New York City, N.Y.

Dear Sir:

This letter is accopy of one sent to you September 1, 1953. Because we have not heard from you, we are assuming the letter was lost in the mails.

The American Rocket Research Association is currently sponsering their fourth annual lecture series. This series which endeavors to acquaint both the technical man and the layman with the field of Rocketry and Astronautics is intended to vary from the strictly highly scientific to non-technical broad fields of interest. Thus in the past, we have provided some enlightenment in this interesting field of endeavor.

On behalf of the American Rocket Research Association we are honored to invite you to speak before the Association and invited guests on the evening of Friday January 8th, 1954, 8 P.M. The program will be held in the Fairleigh Dickinson College Auditorium, Rutherford, N.J. Some of our past lecturers were Mr. C.W. Chillson, Dr. Paul F. Winternitz, Willy Ley, just to mention a few.

As you must be aware, your book BEHIND THE FLYING SAUCERS created quite a sensation. Our membership found it most interesting and entertaining. We would appreciate a lecture during which your ideas and comments on flying saucers might be presented. It is our intention to have Prof. O.G. Ondra of Manhattan College who also has some very interesting ideas on the Flying Saucers, on the same program.

It is our sincere hope that the date chosen is to your satisfaction and that you will honor us with your presence. We look forward to hearing from you soon.

Very truly yours,

Dear Sirs

Will You be so kind as to send this letter to Mr Frank Scully \_  
author of the book Behind the flying saucers- whose present address  
is not known to me. Thanking You beforehand for your kindness I  
remain

yours truly

Dear Mr Scully

With keen interest I have been reading your book - Behind the  
flying saucers (Dutch translation).

It is a very fascinating book and I would like to ask you some  
questions about it.

In the last chapter you mention that scientists have shown that  
it is possible to get velocities of 454000 km/sec by making use  
of the crossing of magnetic lines of force. Can you tell me if these  
experiments have been published and where, or give me other details.  
With respect to the material of which the saucers are made and of  
which Dr. G. says that it is a metal unknown on earth, I think that  
there is a good possibility that it is beryllium, a very light metal,  
known on earth, but rarely used in constructions. When it is prepared  
in a special way it is very hard. If you could send me about one tenth  
of a gram I could make a spectroscopical analysis of it.

Can you tell me when the saucer, containing the wireless set without  
tubes, coils or wires, landed. From your book I can only conclude that  
it happened before summer 1949.

And last not least a question about the story of the small people  
found in the saucers. Is this story really true.? How sure are you  
yourself about its truth? You give so many details whereas other  
authors about flying saucers all neglect or deny the story.

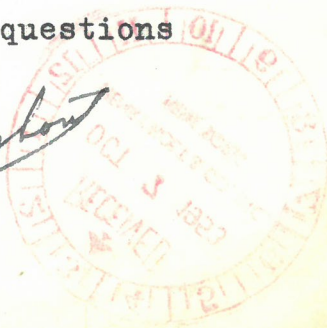

If this story is true than I believe the whole content of your  
book and my conclusion is that our present science will need  
extensive revisions. There is however a possibility that the whole  
story is a joke because you have at some places in your book very  
good jokes e.g. when somebody asked you how it was possible that the  
dimensions of all saucers being divisible by nine were also  
divisible by three, you answered him that you did not know!

Hoping that you will have the kindness to answer my questions  
I remain

Yours sincerely

Dear Mr. Scully,

Last time I heard from you was August 1, 1952. At that time you autographed your book for me, "Behind The Flying Saucers." Too, you mentioned then about your newest endeavor, "The Journal of a Flying Saucerian." I was wondering if it were in print yet? Incidentally I read the "True" Magazine article a short time after you wrote, trying to disprove your findings which as time has gone by, that writer must realize he is in error.

I believe now more than ever people would like the government to release what facts they have. I wish to call your attention to "Look's" latest edition Oct 20th, an article by Major Donald E. Keyhoe, if you haven't seen it already. It's a bone fide listing of sightings, which your book covered, but what interested me mostly was the paragraph on page 119, "New Technology in Magnetism." In other words it seems to me they are getting around to the ideas of magnetism propulsion finally, as your book covered. Now they are accepting kindergarden ideas when they should have graduated already with college knowledge. The whole of it is amply explained in your book on the Flying Saucers. At any rate keep you up your research. With best wishes. Will be glad to hear the latest on your efforts and otherwise.

Most respectfully

James Davies.

Dear Mr. Scully;

In the past few years there has been a great interest in what has been called the FLYING SAUCER. The book you wrote "BEHIND THE FLYING SAUCERS" in 1950 has been enjoyed by us to the greatest.

Since the very first when these objects were sighted, we have read with undying interest every report to the public through the press. It was during this period that we realized the aeronautical industry and certain other organizations were looking and striving in the wrong direction in their efforts to conquer space travel.

For the past few years our research has proven to us beyond any doubt that space travel is just around the corner, and that is within seeing distance. During these years our research has been held to somewhat of a handicap. As you know a majority of people due to lack of knowledge in the matter, because of tight secrecy, either believe there is no possibility of such a thing in our life time, or believe that because nothing has been announced officially by the air force that the sightings are actually true and authentic, we are nuts or are just dreaming.

The reason for us writing you this letter is to tell you in plain and simple facts that we earnestly believe we have hit upon the secret of building and perfecting a motivation of space travel. Of course as you well know, to perfect such a motivation will take material, time, and help. This will all take money, and a great deal to be sure. The same old problem which has been the great drawback to all revolutionary ideas. This problem is hard to overcome in this day and age, especially with a project such as this, when not even everyone in the world believes that such a thing could be possible. Supplied with the aforementioned necessities we are prepared and convinced that we could bring our theories to a successful conclusion.

Of course by this time you are wondering just what type of experience, if any, that we have had in this type of work. One of us is Raymond H. Beyer, who has had 31 years in the engineering profession. This includes experience in aeronautical and mechanical engineering, and research in these fields. He is listed in "WHO'S WHO IN THE MIDWEST" and "WHO'S WHO IN ENGINEERING". Roy R. Beyer is another one of us. He has been in the engineering profession 10 years. His experience includes aeronautical and mechanical engineering and research in these fields.

We have tried to give you a clear perspective of what we are attempting to do and how well we are qualified to do this. We are prepared, with your help to prove to the world that a FLYING SAUCER is not a figmentation of the mind, but can be a reality with the knowledge which we have at this time. Certainly with your great interest in this field we feel sure that you will not pass up this opportunity to help us make a historical event, that will benefit mankind to the fullest extent.

We are earnestly awaiting your judgment in this matter. Knowing that you will see the importance of this matter to yourself, to us, and the world as a whole.

We remain,

Yours very truly,

Receipt From Maurice Beam

To Gene Dorsey

This is to certify that a piece of engraving steel which I Maurice Beam, loaned to Gene Dorsey for purposes of testing an indentation which one Mr Wheeler, who claimed he was from the Planet Venus, made by an impression of his thumb in my presence around or about April 5, 1953, in the press room of the Hall of Records building, Civic Center, Los Angeles, has been returned as of this day by Mr Dorsey to me. This receipt in an acknowledgement of the plate's return to me.

Dear Mr. Scully;

Hi, I'm a salor stationed on the famous ship the Missouri, not the Macon as the stationery would lead one to think.

I read your book "Behind The Flying Saucers", and am not affraid to say that I believe in them. I became ~~interested in flying saucers~~ one year before I joined the Navy, because thats the time I think I actually saw a flying disk of some sort. It appeared to me like a shooting star going up. It was in sight for a few seconds only.

In the last eleven months, I've been on three different ships. Everyone I talked to concerning the possibility of flying saucers said I was crazy, and that nothing so fantastic could possibility exist. I believe almost anything is possible these days including flying disks.

I was told to mark Dec. 10th on the calender, as thats the day the Government will announce the existance of THEM. If this predic-tion comes true, which I am hoping does, the first four of your questions printed in your book will be answered.

Tell me something, what did you mean when you dedicated your book to the Scully Circus, our trained fleas from heaven, etc. Is that some sort of a joke? You should of dedicated it to something rational, as your book is non-fiction, not makebelieve.

I believe in them, but what can I tell my friends to make them believe in me? Please help me out will you.

Yours truly, George P Sacco

Dear Mr. Scully,

I have just finished reading your book "Behind the Flying Saucers" and I think it is wonderful.

The copy I have is one that you autographed for my mother, Mrs. Lois E. Ray on October 27, 1950.

Have you written anymore books on this subject or do you have any further information or articles since this book was published?

I am very much interested in the possibility of space travel and people from other worlds so I would appreciate any information you may have published.

Thank you very much

Dear Mr. Scully,

I have just read your book 'Behind The Flying Saucers', and it interested me very much.

I am a film critic on the staff of POLITIKENS filmjournal - but I have also written a couple of articles about Flying Saucers, and this is the reason why I take the liberty to write to you.

It is my intention to write an article about you, your above book, and Flying Saucers in general, but being able to do so I need a little information about you and your research in 'the Flying Saucer field'.

Do you think you are able to supply me with such material. I should also like to have (that is if it is possible) a couple of shots of Flying Saucers or pictures relating to that subject. Moreover I should be grateful to know whether you have received any answers to the questions you put to the Pentagonian desk generals.

I should, as a matter of fact, ~~be~~ be grateful to receive any information at all about Flying Saucers, and whether new details have been brought to light of late.

Would you know whether there exists an organization or society dealing with the Flying Saucer question, and, if so, whether it would be possible for me to become a 'correspondance'-member of such an organization or society?

I should be very grateful to hear from you, and I thank you in anticipation of your reply.

Yours very faithfully,

Dear Mr. Scully:

Please excuse the long delay in writing you---I want to thank you for an extremely entertaining evening while in your home on Aug. 18th and my boy Jon sends his regards to everyone including the animals!!

Kehoe and Adamski books are selling rapidly and creating quite a controversy--would like to see your new book on the subject out with theirs but I suppose you know best and --"There is No Business Like Bhow Business".

Seems like many of the Hide-Bound characters of the past have had a soaking operation and are taking to the F.S. stories and the related subjects a little more seriously these days and to me that is a good sign--Man waking up!! One striking example of this is the Chicago Rocket Society---I recvd. a letter from them several days ago asking that I assist them in acquiring information for a "COLD SCIENTIFIC" analysis of the data available! They had wondered why this had not been done!! (HA-HA) To quote, "It seems like the Society is finally going to do exactly what it seems you joined the Society for!!"

I am to lecture them the first Friday in December and have already made it clear that to analyze a 4th dimensional thing with 3 dimensional standards is going to avail exactly nothing at least, nothing conclusive as far as a 3 dimensional answer is concerned. I have been discussing the related subject material at great length trying to prime their heads for the big story---

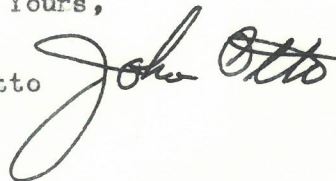

What do you make of the east coast shut downs--those F.S. research groups that claim to have been ordered by the gov. or Higher authority to close shop?--While in Washington DC I found some real fear that all of our Space visitors were not of friendly intent and since have recvd. letters from Cal stating similar fears. I have no fears (and with many related experiences that could have been considered fearful) Do you have any statements that might clear up this feeling or thought?

On way east through Denver I tried to locate Cy Newton and couldn't locate him in telephone book--please be good enough to forward his address if it is available--should any of you be on your way through Chicago--look me up and will try to return an enjoyable visit.

Thanking you again and hoping to hear from you, I am,

Cordially Yours,

John Otto

AN OPEN LETTER TO THE LEADERS OF THE PRESENT UNFORTUNATE CIVILIZATION ON EARTH

Gentlemen - (as no doubt you would prefer to be called) - this is to tell you something about those "Things In The Sky" that you all officially laugh at - rather nervously. By the Grace of God Almighty, the people are no longer being hoaxed into believing your futile denials about Space Visitors - but rather are believing that they've been hoaxed into putting into power some dim-wit leaders. Fortunately, these mistakes can be remedied. There is no longer any point in your all trying to pretend to each other - like a lot of children - that the "Saucers" are your own "secret weapon", in an effort to frighten the others. The international Intelligence personnel must be at their wits' end! It's no longer just a case of people being perhaps "Capitalist" or "Communist" agents - but added to this confusion, is whether they might be either Venusian or Martian. If you had provided a decent, peaceful world distinguishing between the Visitors would be easy.

As you are all off to Berlin shortly, you'd better "kiss and make up" there - whilst there's still time. There are far more important issues facing this planet today, than economics and hurt national prides; and leaders of true Spiritual understanding are needed - whatever language they speak.

As I am one of those who have concentrated on Cosmic conditions rather than petty politics on Earth, I will give you Gentlemen the benefit of my experience, as you have so generously shared yours (this generation has lived under war and threat of war all its life - thanks to the politicians).

The problems facing this Planet today are mainly the following :-

(1) Atomic Fission has already so disrupted the Aura, or surrounding ethers of the Planet, that it is in dire danger of rolling off its orbit - in which case it will be like a car out of control on a busy road, and will have to be "put out of the way". This is one of the main purposes that the "Saucers" are standing by. Hydrogen bombs and the other abominations of war that you Gentlemen have instructed your scientists to make to destroy your fellow-men, will obviously not improve the position. Now perhaps you realize how very important it is that you make an effort to mend your ways - or an Interplanetary Expedition may well land to show you how.

(2) The Space Visitors from Venus, etc. and Mars, etc. have indeed already landed in more ways than meets the eye. The Venusians, etc. come as Friends to help raise the general overall standard of the Earth Planet. This they are doing in innumerable ways by spreading the feeling of the COSMIC BROTHERHOOD OF MAN under the FATHER-MOTHERHOOD of GOD, teaching where they can the Universal Laws of God in all things - be it science or personal relationships; spreading love and confidence between individuals and nations, teaching respect for Life and love of God. Yes - the emphasis is definitely on Love in its highest sense. They come to mould this into a more highly evolved peaceful Planet, in a true "good neighbour" policy.

P.T.O.

The Martians, etc., come to disrupt the peoples of Earth in a "divide and conquer" policy. If war should break out - and they try always to induce it - they would take over the Earth peoples in the confusion of mass propaganda, and have the people become their slave labour through mass mind control. They are already working through "occultists" of a low order, even as Hitler did. He was one of their tools - and they almost succeeded through him. This time it is a fight to the finish. War means the destruction of the Planet. The only vibration that can break the paralysing apathetic obedience to the Martian weapon is PRAYER - and the LOVE VIBRATION. If this sounds like child's nonsense - try it on your "enemies"; LOVE THEM IN THOUGHT, WORD AND DEED - and watch the "MAGIC" melt the barriers between you, until they start loving you in return, though perhaps they know not why. This is just as true for nations as it is for individuals. But there are some on Earth who unfortunately find it easier to perpetrate the atrocities of war, than to love one another. When people love each other with Understanding and Compassion there is NO PROBLEM REQUIRING WAR. You can, Gentlemen of the Political world on Earth, overcome the Martian Invaders with the Weapon of the Venusians - Understanding (Light) and Compassion (Love), knowing that BECAUSE they are WEAKER than you morally they are warlike and full of fear and hatred. But FIRST you must yourselves be united in this Love and Light, and then - God willing - you WILL conquer and dissolve the Martian influence. If not, the Venusians may well take off the few peace-loving people on Earth, and leave you, Gentlemen, et alia, at the mercy of the Martians.

This is neither an "idle sermon" nor "science fiction". THIS PLANET IS ALREADY INVADED BY "SPACIANS". INTERNAL PEACE IS THE ONLY HOPE FOR ITS SURVIVAL.

LOVE AND LIGHT TO YOU

MICHAEL

P.S. If you want to know how I KNOW, I can but quote the Lord Maitreya; -

"When one is on the Threshold, Truth is a philosophy.  
When one is past the Door, Truth is a Reality"; and

"Throughout the Ages, Man has come up the long Stairway to Christhood. Now He approaches in full consciousness that State of Spiritual Awareness on Earth, in His dense Earth body. Now it is He comes into full Priesthood of His Individual Temple of Christhood, dedicated to the Father-Motherhood Within, Without and All Round About."

GOD'S HORSEMEN

---

7 March, 1953.

Oh, the Hounds of Heaven  
Are riding, they're riding, they're riding -  
They're coming down to Earth again  
To sweep the cities clean.

And the mountains and the open places  
Will be filled with frightened faces  
Of the Children of the Earth -  
Listening, listening, listening - listening  
To the Pounding of the Hooves.

Yea, the Horsemen of Heaven  
In their myriads and their multitudes  
Are riding down to Earth again -  
And blotting out the stars.

And the Children of the Earth again  
Are pleading with the Lord again  
To spread on them His Blessings -  
When they forgot Him, forgot Him - they forgot Him  
Until the Pounding of the Hooves.

Oh the Horsemen of Heaven  
Are riding, they're riding -  
The Horsemen of Heaven  
Are riding down to Earth.

AMEN.

I Maitreya have given this to thee, Michael - give it out, I tell thee so. Yea, send it to them as I have instructed thee, and say to them this :- The atomic fission has so disrupted the Outer Covering, or Protective Aura, of the Earth globe, that huge rents now appear - as funnels reaching up into far higher layers of ether than the scientists of Earth suppose. DOWN these funnels will come rushing winds from Outer Space with unheard of velocity, tornadoes and hurricanes that shall sweep all before their path and all but destroy the present civilization on Earth. These winds shall be accompanied by earthquakes in diverse places, caused by the shifting of weights of atmosphere and water. Tell this then, to those who might wish to know the reasons in advance, of the oncoming disasters - for few shall remain to know or care. Yea, almost all are guilty - the scientists who hoped to kill not cure, the people aiding and abetting them by their own inept apathy. So they have sealed their fate, the children of Earth, so be it. I thy God have Spoken this unto the ear of Michael.

Now write as follows, I God Jehovah tell you:-

Upon this enclosed document, I God Jehovah, place My Trust that those of you to be saved and to form My New World of Beauty and Brotherhood will concern yourselves immediately with its contents; and put into effect these Teachings, not only within yourselves, but try your utmost to form Governments with the same views.

The name of these people who start this Great Movement of Peace on Earth, shall be called Michael's People -- so that they shall be known as the Seekers of Peace and Truth.

Soon each country shall have gathered around the Banner of Michael all who shall be saved from My Four Horsemen, who now ride the Earth. Each country shall nominate a Council of Twelve -- in readiness for when My Son, Emmanuel the Messiah, comes to rule over all My Earth.

Seek ye not to delay these matters, for I God Jehovah tell you, the Death Struggle of Armageddon is at hand.

Those of you who follow the following outline of My Wish for your welfare, shall be guided by Me as to the details of the Manifestation -- since these must needs differ widely in the different corners of the Earth.

Think not that I, Lord God Jehovah of All the Universes, do not know each thought of each of you -- since each smallest entity of life must needs be a cell of My Own Body, in which it lives from the Beginning to the End.

Amen

Given through me this day, 17th Feb. 1952, in Hollywood, Calif. U.S.A.

Ann Grevler

Jehovah God I tell you write thus:-- Look unto the world map of today. Find ye a peaceful place from the wickedness of man? Is there one country where man is seeking not to better himself and his conditions of life? How shall he do this? What new human invention shall he now make his slave in his effort to ease his heart? What seeks he if not peace of mind and soul?

Who can see the overall pattern better than Jehovah God I? Think ye little men of Earth you see the minds of other men better than I? Think ye not I, God Jehovah, see not the plans of evil men and the path they wish to tread? Who then of My good children shall stop the evil they know not is in store for them?

Only I God Jehovah know the overall pattern, be sure. Listen then to My child, Michael, whom I, God Jehovah, tell you shall lead you all to peace in My Name -- so that when My Son, Emmanuel the Messiah, comes among you I, God Jehovah, tell you He shall manifest the Peace on Earth, that I God Jehovah have long promised you.

Listen and follow, little men all over the Earth, who wish to survive the terrible Punishment your evil fellow men have brought upon this planet. Fear not ye of good heart, for only I, God Jehovah, tell you, only I can see the innermost heart of each and every one of you.

Listen then to My Words made manifest through My child, Michael. Much will be revealed to those of you who listen. Fear not the ridicule of your unevolved fellow-men -- as Michael fears them not, having found me.

The basic Law of My Universe is that ye shall love Me.

Second, see that ye love your fellow-men, as each and everyone a part of Me.

Third, I, God Jehovah, tell you lest you think that My child, Michael tells you so without My Permission. I God Jehovah tell you that to abuse My child is to abuse Me, and ye shall suffer accordingly.

Fourth, My Word is for all people, no matter what section of the World they inhabit -- and woe to Ye who think to have different thoughts.

Fifth, all people shall first be people -- then shall they be servants of their fellow-men. Think not that any one of you is not a servant in your own way.

Sixth. Men shall be employed in work, six hours of each day, but for one day of rest. Thus shall they live and enjoy the world of My sunshine and flowers and, I, God Jehovah, tell you, much beauty. So that first you shall be people, and then the servants of Economy. Prices shall be established accordingly, and there shall be no over-production. All manufactured shall be consumed and there shall be no waste. Money will be, have faith, in sufficient supply for all necessities; and much money will not be needed in a world of people whose hearts are filled with love and security.

Seven. I God Jehovah have much abhorrance of lethal punishment for the crimes of men against their fellow-men. Only I, Jehovah God, can give life, therefore only I may take it. Those of you who kill, shall, by common consent have to repay by bearing the burdens of your victims in the community.

Eight. Those of you who, God Jehovah I tell you, take in any way what is not yours, shall repay -- without shame -- twofold to the victim, of your own free will.

Nine. I God Jehovah tell you, your taxes throughout the world shall be, I Jehovah God, tell you, lifted until they are, I God Jehovah tell you, a tenth of each individual's earnings. No more is ever necessary to properly govern a country. So shall it be throughout the world.

Ten. This creed shall be the political, humanitarian Way of Life, never doubt, almost upon the instant, throughout My planet Horus (Earth). Those who do not conform, will find they are not of the planet -- as I, God Jehovah, am weary of My people planning deceit and treachery and destruction upon one another; and shall remove those who do so.

Eleven. Never doubt, I God Jehovah, justify what is here written, and shall continue to do so throughout the lifetime of human eternity, for souls at this present stage of evolvment.

Defy Not My Word.

One of modern Earth man's greatest BASIC MISCONCEPTIONS is that all men are created equal.

Even in the Beginning, I God Jehovah tell you, when I had made My Galaxies and My Planets in readiness for man, I made souls of two distinct Qualities of My Own Spirit. For the Souls of My children of the First Radiance I took of My Own Purest Spirit Self; for those of the Second Radiance I mixed this Finest Essence with a slightly coarser Element. Yet in the Beginning, were those of each Group NOT identical with each other within their same Group; but each and every soul, I God Jehovah tell you, is a highly Individualized Facet of Myself. Therefore the presupposition that all are born equal is entirely erroneous: since no two souls are alike - yet do Twin-Souls exactly complement each other. Yet has each and every soul within it the Seed to blossom into full spiritual equivalent of the Highest Soul in its own particular Group. Therefore can no man hope to find the answer to the world problems on the physical and economic planes alone. But when each individual soul has spiritually sought and found Me, and returned Home - then shall he be given his own individual Road-Map, and his Destination thereon clearly marked; that he may journey confidently amongst his fellow-men on Earth. So shall each man be free - and a servant only of Me, God Jehovah, Lord of the Universe.

So on each planet, throughout each Galaxy, shall there be but one Government - My Government - lived according to My Universal Laws. So shall there be Peace and Plenty and Goodwill towards men.

This I, God Jehovah, give to My World of Earth through My child Michael, this Seventh Day of March, 1952.

Many on My World of Earth cry out for Liberty, Tolerance and Understanding from their fellow-men. How many of these crusaders give these Qualities in their true sense? And are not all these Qualities One - Understanding?

I, God Jehovah, say unto thee, My little men of Earth, think ye I see not into the hearts of each and every one of ye? How many, who - by crying "Tolerance!" - mean tolerance only of their own group, whatever it may be? How many carry out My Wish of tolerance in each man for each man? Who shall descry what another thinks and demand his own ideas accepted? Who has a right to descry, and who to demand? Think ye one be better than another because his pockets be better filled? or because he has more book knowledge? or because he is of a majority? How shall ye each and every one look into the heart of another and say, "This man is good" or "This, evil" - when ye little men of earth have learned deceit and subterfuge and treachery as though it were your birthright - that ye call those few honest ones "naive" and "stupid" and "unsophisticated"?

Those of My few children, scattered throughout the world, and increasing in number, who hear My Voice - or the Voice of My Beloved Son, Emmanuel the Coming Messiah - are considered by most of ye as "simple." Indeed they are so - but not as you imagine. I, Jehovah God, tell you the True Path IS Simple and Crystal Clear - but only to those who have passed the Fiery Testings and Heartaches and Loneliness and Sacrificial Altars that they may be disciplined with the Iron Discipline of Humility and SIMPLICITY. Think ye it is an easy Task for one who has lived among the dross and sophistication of the earthly world, with earthly appetites and temptations,

P.T.O.

to still live in the earthly world and be thus DISCIPLINED? Think ye then it is an easy Task to RISE to this SIMPLICITY? Nay, I tell you, few of ye who call them "simple" could rise to such Heights in your present lifetimes. And even among My loving children who have risen, do some fail and fall by the wayside. The only Barrier between themselves and the Temptation of Failing, is their - Free Will. Yet are they stripped of ALL Selfishness, of ALL Ego, of ALL Petty Decisions - that they may become My clear unclouded Channels. And when they stand naked and unashamed before Me, then are they "simple" - and Free, with a Freedom that no other mortal knows. Think ye then the "simplicity" is not worth striving for? Think ye what a Heaven on Earth it would be if each were truly Free? And each being truly Free - or on the Path to It - wouldst there be, think ye, national hatreds, sectarian bigotries, petty politics? Nay, I, God Jehovah, tell you when each man were Free, would he not need nor encounter the harshness of other men's Intolerance; but would each man - as My loving Channels - take his Direction from Me. And think ye, when My children are Tested and Tried and Found NOT wanting - shall I, their loving Parents - not lavish upon them the Bounty of My Everlasting Storehouse Created for their Happiness? Yea, when they have proved to My Satisfaction that they love Me truly, beyond all My Gifts - and can NOT be tempted otherwise - shall the Altars of their Sacrifice be Laden with My Gifts.

I, God Jehovah, give this to My World of Earth through My child "Michael", this 17th March, 1952.

On the destroyed planet of Carmonia, the planetary Akashic Ether was dis-jointed by Hydrogen Estrogenes coming into contact with akashic globules of Light in a wrong combination. This will happen too, on Earth. People will become COMPLETELY unbalanced psychically as the bewilderment of all but the highest souls will be terrific. Say to them then, always to PRAY- constantly to hold their center in a column of White Light, and so tune in to the highest and most stable vibrations possible for themselves. Those who are led individually will still be led individually - and continue to receive their instructions, per se. Much distortion of etheric messages will be evidenced - as indeed on your planet today - by this disturbance of great magnitude. The ATOMIC FISSION has distorted layers of ether around the globe that your scientists did not even know existed. So has the basic damage been done already. The disruption still further by nuclear fission has - and will - unbalance the world Earth in its orbit. Our scientists did the same - with even more diabolical instruments of their own fiendish conjectures. They destroyed our beautiful Homeland. Our planet Carthusia - neighbouring to our lost planet Carmonia (from which I come) - took what survivors there were. We were the High Initiates of Carmonia, were gathered in a safe place - and taken ashore, as it were, on a neighbouring island of safety. Henceforth we dedicated our earth lives - the time scheduled to us to remain in planetary form - to assist and warn other planetary peoples to ward off the disastrous effects of scientific meddling. Little do the people know what their magicians, or scientists, are brewing for their destruction! We too contributed blindly to the welfare and betterment of scientific research - and were destroyed because of it. You have been given a picture of what our planet is today - all dead, in the earthly term, but vague wandering souls whose vile creation this monster of destruction was. So are they left to wallow in their dreams of drunken idleness with slowness of men walking beneath the seas. O My friends of Earth, I Barthoulooa of Carthusia - lately of Carmonia across the sky in the galaxy of Ulita, your own - say to you; - care not for aught but the Universal Laws of God - for the CONSTRUCTIVE and NOT the destructive, lest it destroy that which is dearest to your heart and that of your fellow man. Worry not that the name of our planet appears different through different Earth channels. There are many reasons for this. On different levels of consciousness sounds - and sights - have a somewhat different feeling - like one word in many Earth languages. So now I tell you - ALL try to stop the explosions of hydrogen, et alia, on your planet Earth, or your brilliant scientists will destroy you, as ours destroyed us. "Love ye one another" a Universal tenet - is NOT an idle intonation. The LOVE VIBRATION is so high that it LIFTS the SENDER and RECEIVER into realms of consciousness they cannot know on lower vibrations. LOVE YE ONE ANOTHER - particularly those who work FOR your destruction. Send out the LOVE VIBRATION ALWAYS to those whom you would otherwise fear. It is, if truly sincere and from the heart, the MOST CURATIVE for ALL ILLS - PHYSICAL OR MORAL. So now I say to you, each who reads this - let us say NOW a little prayer - you on your planet, me from mine so sick and destroyed now - let us join forces in a PRAYER OF LOVE FOR ALL MANKIND, for ALL LIFE IN FORM throughout the Universe of worlds. Say with me then, a favourite prayer of the Initiates of Carmonia. It is thus;-

O Holy, Holy, Holy One  
The Circle of our world  
You Girdle Love and Light about -  
Your Flag of Love unfurled.  
You art our Breath, our Sight, our Knowing.  
You art the Coming and the Going  
Of every Cell in Holy Manifestation  
Throughout the Universe of Worlds

Amen,

beloved brethren of the Earth world. I Barthoulooa, have Spoken this to  
My friend Michael, whom I have known aforetime. AMEN.

---

We are all asked to form a daily prayer circle around the world, to send  
out the LOVE VIBRATION in prayer four times a day - at arising, noon,  
sunset, retiring ( or midnight ); The prayer above and/or below, or others.  
Please send this out as far and wide as possible.

Michael

---

The Cosmic Prayer, I God Jehovah tellest thee Michael, is thus;-  
Divine Parents,

I BELIEVE every Wheel throughout the Universe turns on the Divine Flow of  
Thy Cosmic Energy;

I BELIEVE every Cell Throughout the Universe is filled with Thy Divine  
Love and Light;

I BELIEVE the Power of Thy Divine Will dissolves every shadow throughout  
the Time and Space of Thy Divine Creation.

Thy Will Be Done. Thank you. Amen.

Dear Sir:

In reading one particular chapter in your book Behind The Flying Saucers, the one on "Inside Flying Saucers" you state that Dr. Gee actually examined a flying saucer that landed here and found sixteen bodies that ranged in height from about 36 to 42 inches.

This has me very confused. I do not recall reading or hearing anything about this. Neither do any of my friends. If this did happen, when was it and why wasn't it in the newspapers?

An early reply to my questions will be appreciated as I am writing a complete report on "Flying Saucers" as a school project and I must know about this.

I simply am in a dither in whether or not to believe it.

Thanking you, I remain,

Very truly yours,

Dear Mr. Scully:

I have just finished reading Kehoe's FLYING SAUCERS FROM OUTER SPACE. Shortly after publication, I read your BEHIND THE FLYING SAUCERS.

It is most interesting that much of the material presented by you seems to have corroboration in Kehoe's study.

I have never, however, heard an explanation for Silas P. Newton's lecture at the University of Denver or your account of conversations with "Dr. Gee".

Could it be, that, as has been claimed, you were misled or hoaxed along with the students at the University of Denver, or do Newton and Gee still stand by their stories?

Do you plan any future publications in this field?

I would appreciate hearing from you

Yours very truly

Dear Sir,

I have read your book on Flying Saucers twice,  
and have shown a considerable amount of interest about  
the subject.

I was wondering if you have heard anything new  
along these lines that has'nt reached the publication stage  
as yet, or if you have considered the book the closing of  
the issue as far as you are concerned.

Recently ( in oct of 1953) I heard a program on  
one of the local T.V. stations which featured a graph  
scientest who was very successful in making large scale  
predictions based on graph plottings of past events.  
He predicted that the government would make a revelation  
concerning flying saucers on Dec. 10, 1953...as you know  
nothing concerning saucers was published in any of the  
syndicated newspapers.

I would certainly appreciate hearing from you  
if you could satisfy some of this curiosity of mine about  
flying saucers.

Very truly yours,
